The Programme will allocate approximately **7.000.000,00 EUR** (EU & National Funds) to the present Call for Project Proposals. The EU contribution rate is 75%. Beneficiaries shall ensure the needed own contribution (public and/or private, if applicable). An indicative budget allocation (EU & National Funds) to the programme priorities and to the specific objectives is presented in Annex I – Table 2. In the context of the present Call, projects will be included up to the amount of the budget of the Call. When selecting projects to be funded, such allocation may be adapted by the Monitoring Committee (MC) according to programme needs. Projects may be selected up to 100% of the budget of the present Call for Project Proposals.

3. CONTEXT OF THE CALL

The present Call concerns the Operation of Strategic Importance foreseen, in the Programme Document, in the context of the S.O. 4.6 “Enhancing the role of culture and sustainable tourism in economic development, social inclusion and social

innovation" and it is focused on the field of culture. The territorial analysis and stakeholder consultations have highlighted the growing importance of sustainable tourism, particularly in response to the challenges posed by mass tourism in the Programme area. Therefore, it is necessary that culture be further sustained and reinforced in the frame of transitioning to a more social and inclusive GR-IT area. Culture as part of the tourism experience is recognised at EU level as an element that can enhance its profile as a global destination. At the European Union (EU) level, culture is increasingly recognized as a key component of the tourism experience, enhancing a region's appeal as a global destination. In this context, the Programme will support cross-border synergies to foster the role of culture and tourism, with a specific emphasis on sustainable tourism, leveraging advanced technologies and their potential.

The proposed actions should aim to promote sustainable tourism based on common cultural identity. Actions should aim to maximize territorial impact through synergies, considering the maritime dimension and contributing to macro-regional strategies, particularly the EU Strategy for the Adriatic and Ionian Region (EUSAIR) action plan and its flagships. Applicants are encouraged to capitalize on successful projects funded in previous PPs building upon their outputs and results to ensure continued impact. All proposed actions must adhere to the "EUROPEAN QUALITY PRINCIPLES for EU-funded Interventions with potential impact upon Cultural Heritage," as outlined by ICOMOS, ensuring high-quality standards for the preservation, protection, and promotion of cultural heritage throughout the project lifecycle.

Added Value:

The proposed actions should develop best practices for cross-border destination actions and marketing, enhancing the attractiveness and competitiveness of the regions involved. Culture and heritage, as increasingly important elements of the tourism product, can provide distinctiveness and uniqueness, fostering regional identity and appeal.

Expected Results:

Cross-border cooperation is expected to strengthen the role of culture and tourism, contributing to a more inclusive and socially sustainable GR-IT region. The capitalisation of previous project results will sustain and reinforce existing cultural hubs while enabling the creation of new ones. The overall outcome should be a diversified and sustainable tourism offering that supports regional economic growth, social cohesion, and the preservation of cultural heritage.

4. PROJECT DURATION

Projects should be concluded within a maximum period of thirty six (36) months after the signing of the Subsidy Contract (SC) between the Managing Authority/ General Secretary for Partnership Agreement/Alternate Minister of Economy and Finance and the Lead Beneficiary. Projects that have started their implementation before the signing of the contract, and in any case after 1/1/2021, should not have been concluded before the application for funding at the present Call for Project Proposals. This limit applies for the operative phase of the project and does not include the preparation phase.
